The Palestinian movie festival in Auvergne-Rhône-Alpes has confirmed for two years the interest of this ambitious project of ERAAP association. This project met the positive response from many people and various local groups all interested by the idea of a "Palestinian movie festival", and also from a wider audience. The festival "Palestine in view" gives a more varied image of Palestine, different from the usual stereotypes. It showcases the filmmakers and actors thereby assuming its vocation of support of the Palestinian cinema.

The festival took place in 2015 and 2016, in 24 cities from 9 departments

Each year there have been more than 40 sessions which gathered more than 1500 spectators.

Map of cities which took place film screening

The Festival "Palestine in view" is working closely with the association "Présence Palestinienne" who organizes "Week of Palestinian movie in Vaucluse". Also it is partner of Palestine Film Festival from Paris and "Filming is to exist" from Geneva.

Palestinian guests participate in the festival and bring a living light.

Emad Burnat director of "5 broken cameras" in 2011. Part of festival animation team around Maï Masri director of "3000 nights" in 2016

The festival is also an opportunity to present other artistic events.
